

## REMARKS/ARGUMENTS

This is responsive to the Office Action dated May 14, 2004.

The Patent Office objected to the Declaration. Enclosed is a new Declaration identifying this application by application number and filing date.

The Patent Office objected to the drawings on the ground that they failed to show a "port" as described at paragraph 39, line 2. Enclosed is a revised drawing sheet showing in red a proposed correction to Figure 1. The proposed correction is based on the corresponding Figure 1 in the parent case, U.S. Patent 6,697,749. Approval is requested.

Claims 1-7 were found to be allowable, but for a non-statutory double patenting rejection. Enclosed is a Terminal Disclaimer referencing the parent issued U.S. patent. Enclosed is our check no. 17614 in payment of the fee for the Terminal Disclaimer.

An Information Disclosure Statement is also enclosed.

In view of the foregoing, allowance of this application is requested.
